

# AARYA RAJOJU

//

## ABOUT ME

- > I'm a computer science student, fond of programming and data science. Skilled in multiple programming languages and multiple technologies.

## SKILLS

### > PROGRAMMING LANGUAGES:

- >> GO
- >> PYTHON
- >> JAVASCRIPT
- >> C/C++
- >> SQL

### > COMPETITIVE PROGRAMMING

- >> Four 5-star badges on HackerRank

### > WEB DEVELOPMENT

- >> HTML, CSS, & JS
- >> Node.JS, & Express.JS
- >> BOOTSTRAP STUDIO

### > TECHNOLOGIES:

- >> Git & GitHub
- >> Node.js
- >> Discord API (discord.js & discord.py)
- >> VS Code Extensions
- >> Web Automation using Selenium.JS

### ADDITIONAL SKILLS

- > Photography
- > Graphic Designing
- > Video Editing

## EDUCATION

### > Indian Institute of Technology, Madras (IIT M)

#### >> B.Sc. Programming and Data Science

- >>> 2021 - Currently Enrolled - 2024
- >>> Current CGPA: **9.0**

### > Chandigarh University

#### >> B.E. Computer Science Engineering

- >>> 2020 - Currently Enrolled - 2024
- >>> Current CGPA: **7.67**

## PROJECTS

### > Tasks Manager | 2021

- >> A web-based ToDo List Manager
- >> A web app that interacts with the list of tasks stored in a DB, using API calls
- >> Technologies Used: PostgreSQL for the DB, Express.JS for making a Rest API, Node.JS for running the server, and HTML/JS/CSS for the webpage.

### > 8-Puzzle | 2021

- >> A discord bot & a console-based app to play the 8-puzzle sliding game.
- >> Technologies Used: Discord.JS

### > Arduino-GameConsole | 2021

- >> An Arduino-based game controller to play interactive games.
- >> Technologies Used: Arduino, Node-SerialPort, Node.JS

### > AR50 | 2020

- >> A general-purpose Discord bot.
- >> Technologies Used: Discord.JS (discord API for js), Node.JS, and HTTP web requests
- >> Submitted as the Final Project for CS50.

## ADDITIONAL COURSEWORK

- > CS50x - Introduction to Computer Science
- >> edX course from Harvard University
